

BORDERPOL Contract Professional Development Programs

Reward your employees with high quality professional development from the World Border Organization - BORDERPOL® the global border security and border management organization and principal educator of border professionals worldwide.

Since its founding in 2003, BORDERPOL has been at the forefront of advancing better border security through consultation, coordination, communication and education.

BORDERPOL offers your organization the convenience and benefits of hosting your own private professional development programs at a location and date of your choice. Select from an extensive offering of workshop based programs, or let us develop customized classroom training to meet the requirements or interest of your target audience. Rich program content with expansive knowledge and skills across all disciplines of border security and border management.

If your organization needs to better understand the global border security paradigm, BORDERPOL can help.

Participants learn not only from our internationally recognized subject matters experts, but also from one another as they acquire shared knowledge, engage in creative problem-solving, and ultimately work toward viable solutions.

Our workshops and classroom programs are designed for:

- * Non-governmental organizations or educational institutions looking to gain an advanced baseline understanding of border security and border management issues,
- * Government agencies seeking outside support to improve knowledge and skills of employees or managers by acquiring knowledge of the newest practices of the private sector, or
- * Media or parliamentary groups wishing to improve their understanding of the global or national border security paradigms which includes immigration, refugee, customs and national security issues.

BORDERPOL educational programs provide valuable benefits to both the sponsoring organization and to the individual attendees.

BORDERPOL professional development services offer:

- * Focused training to meet your specific knowledge or skill requirements,
- * Provide incubation processes to promote corporate creativity.
