

To *WBO-BORDERPOL Newsletter* readers and BORDERPOL members/observers,

*The Secretariat* has received news from our readers and members about "spam" they are receiving from another organization which has adopted a name similar to ours or in fact is sending "spoof" e-mail with <BORDERPOL> somewhere within the address line.

Should you receive any communications such as that, please be assured that this organization has absolutely NO connection in any way with *any organization posing as a BORDERPOL with similar name, spelling or unauthorized use of our logo.*

Please remember that *BORDERPOL* does not send ads to our readers. We do not share contact information about our members or subscribers with any third parties under any circumstances.

Please be careful to distinguish between *our Newsletter and our Publications such as Border Security Matters* with those of others who are compromising the long-term goodwill we have established with you, our members. Don't mark us as spam because of confusion over any other organization trying to market on our good name.

BORDERPOL is a *registered trademark* and the use of it is strictly monitored by the Secretariat. Always look for the use of our logo (visible below) for authentic WBO-BORDERPOL communications.

Tony Kingham

Director Communications

WBO-BORDERPOL
